

FTP with Filezilla

Follow the link below to download Filezilla. Follow the instructions to install on your computer. Odds are you will have to turn off your firewall or antivirus to install.

<https://filezilla-project.org/>

You want to download Filezilla - CLIENT.

Once Filezilla is loaded - key in your login and password in the following format:

Host: www.irishsetterclub.info

User Name: xxxxx@irishsetterclub.info (replace xxxxx with your login)

Password: Enter the password you were given (case sensitive)

Port: Leave blank

Click quick connect. If everything was done correctly - you should be in.

The next time you need to log in - Filezilla will have saved your information. Just click the down arrow to the right of quick connect and chose the one you need (if there are more than one options).
